WE ARE COMMITTED TO DESIGNING  
**EXCEPTIONAL BATHROOMS**

May we introduce our latest Bathroom Collections brochure – a selection of the world's best bathroom ranges, with products sourced from leading designers as well as our own exclusivities, only available from C.P.Hart.

Please use the brochure as a guide to inspire both classical and contemporary bathroom designs. However, only close inspection through a showroom visit can convey the true quality of our products, with inspirational room set displays and extensive sample selections.

As importantly, our showrooms provide personal consultations with the industry's most knowledgeable and highly trained bathroom consultants and designers, building on almost 90 years' experience in specifying innovative, beautiful, and durable bathroom products. Here, you are able to learn more about our product offering and Approved Installer Service, and meet our award-winning designers.

There is no better place to be inspired

BATHROOMS | TILES | WELLNESS  
DESIGN & INSTALLATION

## BASINS & FURNITURE

Our basin collections combine the finest finishes with the latest trends, from durable ceramic washbasins to sculptural glass and concrete designs. To complete your vanity area, pair a basin with a pedestal or metal stand, or choose from one of our many furniture ranges to benefit from additional storage. Fluted vanities, such as those from Spanish maker Buto, offer a contemporary solution, whilst our exclusive Willow, Odell, and Rowan units, crafted from solid timber by skilled UK artisans, provide a traditional touch.

Our furniture collections include both stocked pieces and made-to-order options for bespoke projects.

## NEOREST WX1 WASHLET by TOTO

The TOTO Neorest WX1 features a slim design with over 10 advanced functions, including an automated and heated seat, a sensor-controlled night light, and warm water cleaning.

## RW WASHLET by TOTO

The RW shower toilet stands out in TOTO's collection with its sleek silhouette and improved hygiene offered by an automated seat, rimless design, and unique EWATER+ technology. A remote control is provided for ease of use.

## SW WASHLET by TOTO

The SW features TOTO's state-of-the-art technologies, including dirt-repelling EWATER+, automatic descaling, a night light, and a continuous-flow water heater. A remote control is provided for ease of use.

## RG & RG LITE WASHLETS by TOTO

The RG is characterised by a simple design with soft, smooth lines, allowing it to easily fit and coordinate with any space. A more affordable introduction to TOTO's product collections, the Lite model is available without the premixer and deodoriser.

## RX WASHLET by TOTO

The innovative RX EWATER+ WASHLET takes hygiene to a superior level. With an elegant, streamlined silhouette, it features electrolysed antibacterial water that breaks down waste, a deodoriser, a heated seat, and a self-cleaning wand with a warm jet system.

## AQUACLEAN ALBA by GEBERIT

The AquaClean Alba is Geberit's entry-level shower toilet, simply styled whilst delivering WhirlSpray technology with adjustable temperature, positioning, and pressure - all controlled via an app or remote.

## SENSOWASH STARCK F by DURAVIT

The SensoWash Starck F, designed by Philippe Starck, is part of a new generation of WCs that redefine comfort, hygiene, and quality of life. Operated by remote control, Duravit's range of shower toilets make exceptional personal cleanliness simple and comfortable to achieve.

## AQUACLEAN MERA by GEBERIT

Discover a greater sense of bathroom wellbeing and comfort with Geberit AquaClean Mera. This generation of WC provides outstanding hygiene – a pleasant, warm jet of water offers optimum cleaning at the touch of a button.

Original 3-Piece Basin Mixer in Unlacquered Brass

## BRASSWARE

When finalising a bathroom design, selecting brassware is one of the most important decisions. Our basin, bath, bidet, and shower fittings combine exceptional functionality with refined aesthetics and the highest quality.

Explore the highlights of our exclusive own-brand collections – over 50 ranges in total – including Spillo and the award-winning Park Lane and Epoch collections. Investment in beautifully designed, precision-engineered brassware from the world's most advanced product makers will ensure years of reliable performance

# BATHS

Designing and sourcing premium baths is our heritage. Often the bathroom's focal point, we supply an extensive breadth of styles and materials. Discover inset bath options from Bette, recognised for their award-winning steel baths, or freestanding, cutting-edge creations from Italian makers Ex.t, renowned for avant-garde design.

Roll top to inset, contemporary to classical, each of our baths – including our signature exclusive Audrey, Coniston, and Winchester baths – is manufactured for comfort and to stand the test of time.

## SHOWERS

With an increasing emphasis on the importance of wellbeing, selecting a shower that combines premium quality with optimal comfort is essential. Our Odyssey shower collection, available exclusively at C.P. Hart, is meticulously manufactured in the UK to accommodate a multitude of shower configurations, with single panel, sliding and hinged door, corner, and recess options available.

Other shower collections exclusive to C.P. Hart, as well as those from leading shower brands such as Matki and Drench, offer crittall style or seamless glass in a variety of finishes.

Many of our shower screens and enclosures can be made bespoke for all specifications.

# WELLNESS

Have you explored the option of adding a home spa to your bathroom?

Combining sophisticated design and reliable technology, the variety of home spa ranges has evolved dramatically in recent years and can now be accommodated in even the most compact spaces.

Our wellness selection includes premium sauna and steam products from Italian makers Effe and the latest from Sunshower, an innovative bathroom concept introducing the positive benefits of sunlight to the daily showering routine.

## NATURAL SAUNA by EFFE

A glass-fronted structure, Natural is composed of heat-treated aspen that carries a warming timber essence to enhance the sense of nature. Much like a shower, the glass frontage eliminates the feeling of closure.

## ALADDIN by EFFE

For visual weightlessness, the Aladdin sauna features a mirrored fascia encircling the base, giving the sauna the appearance of elevation whilst ensuring continuity with its surroundings. Aladdin has softly rounded benches and decorative anodised aluminium detailing on the heater and exterior frame.

## BODYLOVE SH by EFFE

Bodylove SH is a modular system combining a sauna, steam room, and shower. The steam room and shower include touch-screen controls and a dynamic lighting system with LED colour therapy. The sauna features wooden benches, a stone heater, and a wooden bucket and ladle for a traditional experience.

## IDEA IR by EFFE

The Idea IR sauna has a recessed front for a 3D depth effect, with a compact design, hemlock-panelled interior, and warm, integrated lighting. Infrared heaters are placed in the corners, with two or four depending on the sauna's size.

## YOKU S by EFFE

The Yoku S's heater is built into the lowest bench for an uncluttered, linear design. It features a glass front panel, with the option of a wooden door for privacy, and is available in Canaletto walnut, heat-treated solid wood, or aspen, with slat or smooth finishes. Yoku S offers optional colour therapy lights, a sound system, and external shelving.

## SKY by EFFE

The Sky sauna, made from Canadian hemlock or heat-treated aspen, features a bright, airy design with a toughened glass front and ceiling. Customisable for bespoke solutions, it includes LED lighting, optional colour therapy, a traditional stone heater, and a brushed steel control panel with an energy-saving function.

## HORIZONTAL SHOWER by DORNBRACHT

The Horizontal Shower provides ultimate relaxation whilst lying down, with water gently flowing from six water bars to create a unique wellness experience.

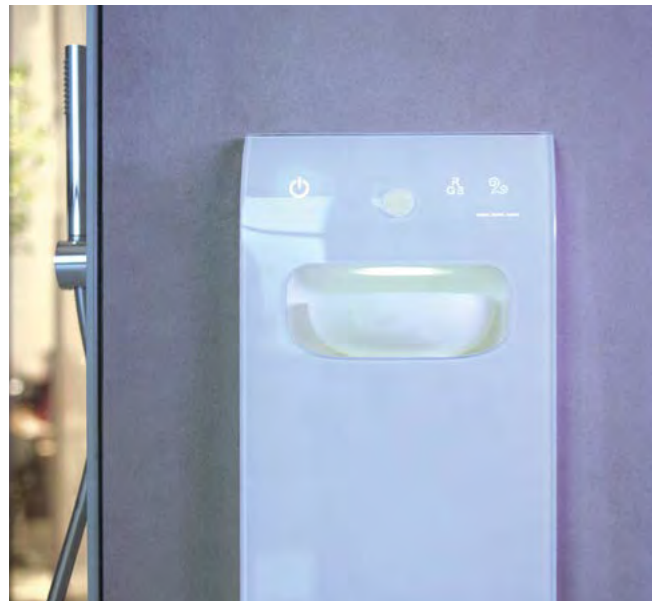

## TOUCH & STEAM by EFFE

A lightweight steam generator that can be installed in any suitable environment, including a home shower; to create a steam room.

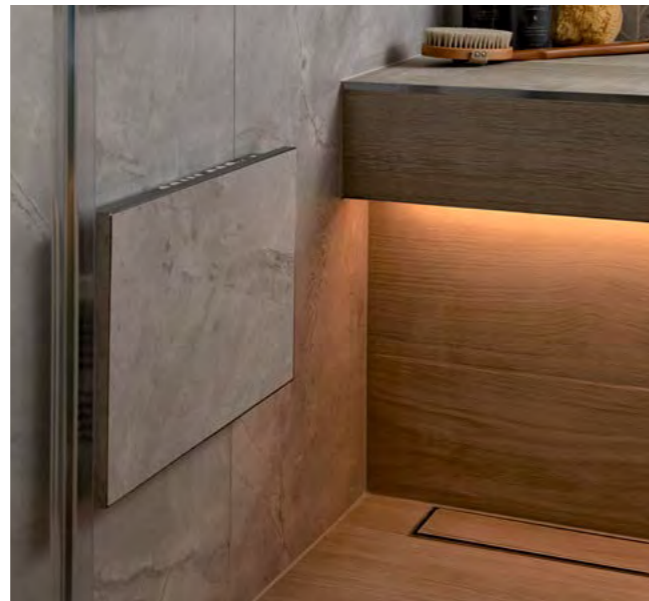

## AQUASTEAM by EFFE

A compact digital steam generator with an attractive curved glass panel, suitable for installation in a new or existing shower.

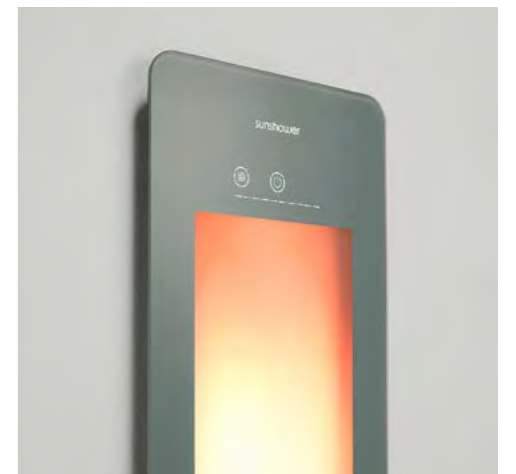

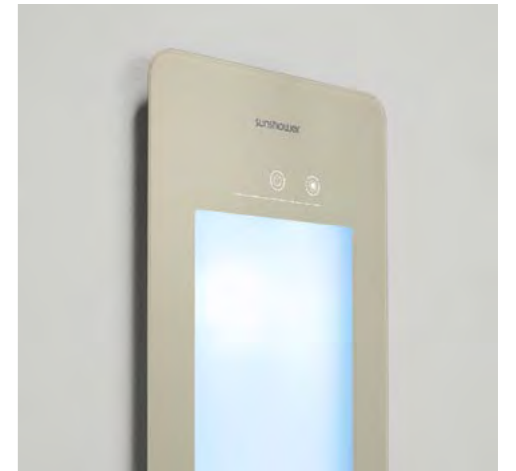

## INSIDE CAMOUFLAGE by EFFE

Designed to be practical and discreet, the front panel of this steam generator can be matched to the finish of your scheme.

## SUNSHOWER

Sunshower emits a warming infrared and safe use, low-dose UV light to provide the body with a multitude of health and wellbeing benefits.  
Left: Black Sunshower Large  
Right (Top to Bottom): White Infrared, Sand White UV, Grey Infrared

## DESIGN SERVICE

If you would like expert advice on renovating your bathroom and transforming it into your dream space, our award-winning Design Service could be for you. Please make an appointment through any of our showrooms, and you can start working with a dedicated, professionally qualified C.P.Hart designer who will guide you through the process, visit your home to survey the room(s), and produce a tailor-made design pack with drawings and elevations to help you visualise the result.

### Drawings, Moodboards & 3D Visuals

When choosing our Design Service, a C.P.Hart designer will conduct an on-site visit to produce a detailed 2D CAD scale drawing of the proposed scheme alongside a specially curated product moodboard.

At the next stage of the design process, the designer will create 2D elevations of the bathroom. These include precise details such as room height, tile-laying patterns, and lighting and electrical plans. If clients choose our Deluxe design package, they will also receive a 3D visual of photo-realistic images, much like stepping into the finished bathroom.

Please contact your nearest showroom to find out more. Alternatively, call us on 0345 600 1950, email [designbooking@cphart.co.uk](mailto:designbooking@cphart.co.uk), or scan the QR code.

## INSTALLATION

Installing a new bathroom is one of the more complex and technical projects in any home. As bathrooms have become more sophisticated, installation requires more highly skilled and specialised practitioners.

### Expertise & Professional Standards

Our Approved Installers have expertise and experience in fitting highly technical and complex bathrooms. They are only accepted into the programme after a rigorous verification process, assessed on qualifications and skills, site management, and safety.

### Peace Of Mind

We conduct a series of checks on all Approved Installers, including inspection of prior projects. Whilst Approved Installers will take the utmost care of your property, we insist every installer has public liability insurance of a minimum of £5 million in the unlikely event of an accident.

### Guarantees

Approved Installers receive specialist training on C.P.Hart's premium quality products. Following manufacturers' installation guides, they ensure each product's guarantee is maintained. All approved installers offer a minimum two-year guarantee on their workmanship.

# Our Showrooms

To begin your bathroom journey, or to benefit from our expertise, please visit any one of our showrooms or speak with our consultants on 0345 600 1950.
